GROUP AVIA INC.

Acquisitions

Market Intelligence... Without It You Are At A Disadvantage

The most frequent users of business jets make fewer aircraft transactions in their careers than manufacturers or brokers handle in a single year. Bloomer deVere eliminates the Seller's advantage by providing our Acquisition clients with a degree of expertise that can only be gained through years of daily market research and hundreds of business jet transactions.

Current Values... Future Values

Fewer high-quality aircraft are available as the worldwide fleet of business jets is aging and total flight times are rising. Careful scrutiny of the increasingly complex list of factors that can affect an aircraft's value is critical. At Bloomer deVere, we know what fair market values really are. Prior to purchase, our clients understand entry costs, projected operational costs, and the market trends affecting future values.

Tested, Proven Procedures

Bloomer deVere's research, offer letter, definitive contract, and pre-purchase inspection procedures are

an industry benchmark. We assure that during each step of the acquisition process, our clients' interests are protected.

Bloomer deVere Works Only For You, Our Client

As an independently owned company, our commitment and focus is driven entirely by our client's goals. Working in concert with the CEO, CFO, and Aviation Department Management, we customize our services to your specific needs whether you are a first-time buyer or a fully established flight department.

A key element to Bloomer deVere's success is that, historically, we have demonstrated savings to our clients that are substantially greater than our fixed consulting fee.
