Consulting

Client Advocate, Industry Resource... Part of Your Team

Optional Analysis

Studies for first-time consumers consider all transportation delivery options from Fractional Shares, Jet Cards, Charter, Whole Ownership, Lease to Partnership Strategies. The final Executive Analysis Report can provide cost, NPV and Earnings per Share figures often identifying the most financially attractive option. Studies for current owners focus on upgrade, consolidation or downsize issues.

Fleet Analysis

Considering a company's history, current and future needs in conjunction with financial, operational and tax implications Bloomer deVere's Fleet Analysis can evaluate, identify solutions and then implement the strategic plan focused on providing optimum results.

Market Trend Analysis

Taking the pulse of the market is key. By monitoring transactions daily, Bloomer deVere's research team can forecast accurate market trends supporting achievable acquisition and marketing prices for our clients.

Evaluation and Technical Appraisals

Bloomer deVere has years of experience evaluating corporate jet aircraft. From a desktop aircraft evaluation to a comprehensive Pre-purchase Technical Appraisal our experience and attention to detail produce results.

Aircraft Completion, Acceptance and Delivery

Working with manufacturers, maintenance facilities and completion centers, Bloomer deVere represents our clients on-site ensuring each project remains within the work scope, on schedule and within budget.

Operational Start-up

Supporting a client's requirements from Options Analysis to first flight provides the level of customer service expected when making an aviation investment. Whether overseeing the implementation of an independent flight department or negotiating with potential management companies, Bloomer deVere can facilitate a smooth transition from idea to reality.
